Key Words: Translation, Passive voice, Analysis.

ABSTRACT:
The English passive voice is part of English Grammar. There are many forms of English passive voice. The problem of this research is what the translation of English passive voice into Indonesian are. The aim of this research is to find out the translation of English passive voice into Indonesian in sentences that written in the novel New Mooni by Stephenie Meyer. The writer uses a qualitative method as the research method. As a result, the writer finds that English passive voice is not only translated into Indonesian passive voice by using affixes di-, ter-, and ke-an and it is also translated into Indonesian active voice by using prefix me- and ber-.
