Key Words : website, vespa restoration, macromedia dreamweaver 8

ABSTRACT:
The rate of development era is more demanding our time to produce and get fast paced information. Computers become the most appropriate tool to get it. Internet is one solution. Internet can explore the world in a matter of seconds, without having to visit the wrought source. Is presented with an Internet web site contains information about the Vespa scooter is intended that the Vespa is still the original can be preserved and can be restored so that is better known by the public. The writer is using Macromedia Dreamweaver 8 for making this site because of this software easy to use without having to memorize the HTML commands. Also Macromedia Dreamweaver 8 has a high compatibility level like other Macromedia software. Macromedia Dreamweaver 8 also provides a high level of flexibility for the advanced user or basic level.
