Key Words: difference, production cost, PT. JEIL FAJAR INDONESIA.

ABSTRACT:
The aim was to find a company that big gain or profit. Each production activity requires the production cost because the cost of production is intended to obtain the economic value of higher product. Therefore, every company needs analysis, production cost difference. To meet these goals, then use the data associated with the writing of the standard production cost data and actual production cost data on the PT. Dawn Jeil Indonesia where in the calculation of the difference between its cost of production using three methods of difference. The results of the discussion showed that in February 2006 PT. Fajar Indonesian Jeil obtain profitable difference to the difference in raw material costs and foreign direct labor costs and excess loss in excess overhead costs so that it can be concluded that the PT. Dawn Jeil Indonesia has operate effectively, but not fully correct.
